BUSINESS ADMINISTRATION CORE

The Virginia DECA events are designed to assist students in the preparation of potential career areas within Marketing, Management, Finance, and Hospitality. DECA members currently affiliated at the state and national level are encouraged to take part in competitive events by beginning competition at the district level.

There are a variety of competitive events that students can participate in but this is a decision that should be made between the student and instructor depending upon the student’s career interest and path \*. Refer to the Chapter Management Guide at <http://vadeca.org> for further details of Virginia events.

Please use the model below provided by DECA Inc. to guide student placement in appropriate competitive events.

## Suggested Grade Levels:

1. Freshman year: **Principles of Business Administration Events** are designed for first-year DECA members who are enrolled in introductory-level principles of marketing/business courses. Students were previously members of DECA are not eligible for these events.
2. Sophomore year: **Team Decision Making Events** measure students’ ability to analyze one or a combination of elements essential to the effective operation of a business in specific career area.

**Business Operations Research Events** provide an opportunity for participants to demonstrate knowledge and skills needed by management personnel through the preparations of a detailed written strategic plan and presentation based on the results of a research study.

3. Junior year: **Prepared Presentation Events** and **Individual Series Events** effectively measure the student’s proficiency in the knowledge and skills identified by occupational practitioners as essential to success in a given career. The student is given a description of a specific situation that measures skills, knowledge, and attitudes in a given career. Roles in these events could be content area expert, client, customer, employee, supervisor, manager, or entrepreneur.
4. Senior year: **Project Management Events, Business Plans, Integrated Marketing, Professional Selling and Consulting Events, and Online Events** (Stock Market Game and Virtual Business Challenge)

- **Tier 1—Business Administration Core:** Consists of 12 instructional areas each with foundational knowledge and skills common to the four career clusters that DECA supports. Performance indicators in this tier are used in the Business Administration Core exam and the four Career Cluster exams. Performance indicators in this tier are used in role-plays for Principles of Business Administration Events, case studies for Team Decision Making Events and role-plays for individual Series Events.
- **Tier 2—Career Clusters:** Each career cluster has its own set of instructional areas and knowledge and skills unique to careers within that cluster. Performance indicators in this tier are used in Career Cluster exams. Performance indicators in this tier are used in case

studies for Team Decision Making Events and role-play for Individual Series Events.

- **Tier 3—Career Pathways:** Career Clusters are then separated into career pathway, grouping similar careers together in broad based pathways representing knowledge and skills unique to the pathway. Performance indicators in this tier are not used in exams. The performance indicators in the respective pathway are used in role-plays for Individual Series Events.
- **Tier 4—Specialties:** The specialty level addresses knowledge and skills needs for each specific career within a pathway. For example, in professional selling, some job opportunities are pharmaceutical sales, real estate sales and advertising sales. Because they are so specialized, performance indicators from this tier are not used in DECA’s competitive events.
